Testimonials from Our Students

Ang Ming Wei

I would like to express my heartfelt gratitude to AP Chee Hay Kheong, whose unwavering support and guidance had assisted me to excel.

It is a privilege to be under AP Chee's tutelage, and he had a huge hand in my achievement of such stellar results. His ability to illustrate theories with real-life scenarios allows students to have a good grasp of the subject matters. I deeply appreciate his dedication and commitment, and his efforts of staying back to answer my queries after the lessons. Light-hearted in nature, AP Chee had done a superb job in ensuring that there is never a dull moment in his lectures. He has been a great lecturer and I will definitely miss his lectures!

Last but not least, thank you SAA-GE for the Outstanding Achievers Award and for providing a conducive learning environment. This will definitely spur me to achieve greater heights for my remaining papers.

Cassandra Lo Jia Hui

Firstly, I would like to thank God for this achievement and the privilege to be a prize winner. I would also like to thank Mr. Chee for all his help, assistance and guidance in the course of my audit studies.

Starting off with less favourable perceptions about audit, Mr. Chee soon transformed my mindset into positive outlook with his amazing lectures and systematic, logical approach to audit - it is not the notoriously difficult paper that I thought it to be! His humorous lectures, packed with recounted experiences brought audit theories alive in application to the real business world, and thus made it interesting as a whole. I deeply appreciate his commitment to guide students in building up technical knowledge and developing sound exam techniques, pointing out pitfalls to be wary of and hence, avoided in the exam.

Audit became an achievable paper too because of Mr. Chee's encouragement and motivation, that it is not that difficult if you conscientiously revise concepts, understand them, and practice for reinforcement. I have been privileged to be under the tutelage of such an excellent lecturer as Mr. Chee. Truly, "the mark of a good teacher is that what is difficult and complicated becomes simple to understand." (D. Prime, A. Begg) Thank you very much Mr. Chee!

Fellow F8 and P7 friends, may I cheer you on to excel in these papers; with the best tutelage afforded, be encouraged that audit papers can be aced on the very first attempt!

Chen YaoMin Alvin

AP Chee is a very dedicated lecturer who delivers his lectures in an interesting way. Friendly and approachable, I can always look for him when in doubt. I would like to thank him for his guidance and I feel privileged to have him as my lecturer.

Kelvin Cheong Ming Yang

It has been a great blessing under the tutelage of Ms Lee. Her notes were very well written and to the point allowing students to study effectively and efficiently. She also explains the concepts well and is always willing to help with your queries. Thank you Ms Lee for your wonderful lectures!

Lai Rong

My deepest gratitude goes first and foremost to Mr Ian Lim; he is an outstanding teacher who has passion and patience. I enjoyed his F9 class in last semester and learned this module effectively and efficiently by its F9 notes. His F9 notes are very detailed and delicate and his class is very funny and enjoyable.

Li Li

I would like to express my gratitude to my P5 lecturer Mr. Ian Lim and my P7 lecturer A/P Chee Hay Kheong. It was their great lectures that helped me pass the exams and become a prize winner, which is really beyond my expectation.

I would like also to take this opportunity to thank all SAA-GE staffs for their kind assistance providing to all students. I took all my 14 ACCA papers with SAA-GE and it was really a pleasant experience!

Ng Pei Jun

I would like to express my greatest gratitude to Mr Ian Lim for his creative and innovative teaching in paper F9. He doesn't just focus on the calculation part of the subject, but strike a well balance between calculation and theory. His study notes are very well organised, with adequate practice questions at the end of each topic to get us practice on it.

He would also go through every single question in the past year papers to get us to have a feel of how the examination questions would be, and the technique I should use in order to score higher marks in the examination. He never fail to answer any queries I have during my course of study in F9 with him, and even he even take the effort to explain difficult concepts in this subject over and over again until we fully understand the concept.

Oh Hui Jun

I would like to express my utmost gratitude to Mr Goh Sher Wee. He was the one who encouraged and helped the students in any way he could. His commitments in teaching the students and his neatly organised notes were commendable.

Without him, I would not have been able to graduate from the ACCA. Students of SAA-GE are lucky to have a lecture like him - a wonderful lecturer and role model.

Tan Li Peng

Dear Ms Chantal Wan, thank you for giving me courage. You gave me confidence in myself, helped me see what I could be. I appreciate all your hard work. Thank you for your time, expertise and patience. It meant so much to me.

Tay Xin Yong

I would like to use this opportunity to express my gratitude to my lecturers who have taught me for the different subjects and to SAA-GE staff who are the unsung heroes that made this education package a complete one. Both lecturers and staff have given utmost support to every student's needs and providing a conducive environment. AP Chee HK, Mr. Adrian Hoa, Mr. Chow KT, Ms Lee YL, Mr. Ian Lim, thank you.

Tian Limin

I would like to express my gratitude to the following lecturers in SAA-GE. I would like to thank Ms Lee Yuet Lai as she was extremely supportive of me when I took the F6 her. She did not mind spending extra time during break or after lesson just to clear any doubts that I had. Ms Lee's lessons and notes are simple and clear such that students can understand her well. I would also like to thank Mr Tan Peng Kwee who taught me for F4. He taught mind-mapping skills in class and was approachable whenever I have questions to ask. He made law concepts easier for me to understand and at the same time I believe the map-mapping skills that I have learned will be useful for other modules as well. The last lecturer that I would like to thank is Mr Ian Lim as he taught me a great deal on examination skills when I took F5 under him.

Wilson Tan Kee Hoong

It is a great achievement to be one of the prize winners. This cannot be achieved without the support from the school and lecturers.

Yuen Fook Soon

Many thanks to my P1 tutor, Mr Phillip Woo. He is a good lecturer who's able to share real life experiences and the lectures were therefore both practical and lively. I have chosen to do my entire ACCA course with SAA-GE; even though there are many choices around as I trust SAA-GE provides quality education with dedicated tutors.

Noor Azzah Zahirah Binte Abdul Aziz

I am grateful to my lecturer, Ms Yeo Ai Ling for her guidance. I usually have difficulty focusing in class, but Ms Yeo kept her lectures entertaining and engaging which made her lectures easier to follow and understand. I appreciate her efforts to connect with the class as well. Thank you for being a great lecturer, Ms Yeo!
