Mr James Kwan has been my lecturer since paper 1.2, and I have been winning 3 prizes under his guidance. This wouldn't be achievable without his continuous encouragement and motivations. Mr James Kwan is a very dedicated and devoted lecturer. He has the charisma and ability to get students to aim high. He is always patient to clear student's doubts and equip his students with wider and deeper knowledge than what is required by the syllabus. Once again, thanks a million James!

I would like to express my heartfelt gratitude to Mr Chee Hay Kheong for making learning paper 2.1 a joy rather than a chore. In addition, I would like to thank Mr James Kwan for his dedication and commitment in teaching.

FOONG LING HUEI

I must confess that I had doubts when I first saw Mr Andy Tan. How could SAA employ this young man who neither looks like nor behaves like conventional lecturer? But I was proven wrong as the classes went on. Andy has unconventional methods of teaching, which made understanding easy. His imaginative mnemonics made remembering key concepts a piece of cake. His notes were short and concise. Thank you, SAA, for opening up my mind. And thank you Andy!

LIM GEE KIAT

I enjoyed Mr. Ben Lee classes very much, with the extensive industry experience he has, Mr Lee adopted a practical style in teaching the FRS. While attending to the details in each of the FRS, he did not compromise on the scope of the subject. I have learned a lot from him.
